HOW TO EDIT

In order to edit the file, you need to have Adobe Photoshop installed on your system, and the fonts mentioned in the credits installed. As you can see on the right, the layers are well organized and grouped into folders, which make editing very easy. So, all you have to do, is select the layer from the right, and then edit it with Adobe Photoshop.

That's all! Enjoy.

If you have any questions or need customization, please contact me via e-mail or through my profile page. I'm here to help!
